SUMMARY:

IT support professional with 2+ years of experience providing technical support in a multi-user university environment. Skilled in endpoint troubleshooting, Windows/macOS support, network connectivity, VPN, MFA, printers, ServiceNow ticketing, remote support, documentation, and escalation workflows. Strong foundation in TCP/IP, DNS, DHCP, Linux/Ubuntu, and customer-facing IT service delivery, with experience supporting users across hardware, software, and enterprise application issues.

EDUCATION:

Montclair State University, Montclair, NJ

September 2022 – May 2026

Bachelor of Science in Information Technology | Minor in Computer Science | Certificate in Game Development

TECHNICAL SKILLS:

- **IT Support & Platforms:** ServiceNow, ITSM, BeyondTrust Bomgar, MFA/Duo Support, Endpoint Support, Microsoft Office Suite, Knowledge Base Documentation
- **Networking & Systems:** TCP/IP, DNS, DHCP, VPN, LAN/Wi-Fi Troubleshooting, Windows, macOS, Linux
- **Hardware & Endpoint Support:** PC troubleshooting, device configuration, printer support, browser/cache troubleshooting, mobile device support
- **Programming & Web Development:** Java, Python, C, JavaScript, SQL, HTML, CSS, PHP, Flask, Jinja, Bootstrap
- **Databases & Local Web Development:** MySQL, SQLite, XAMPP, Apache, phpMyAdmin, SQLAlchemy
- **Development Tools:** Visual Studio Code, Git/Git LFS, Wireshark, Figma, Blender, Unreal, Unity

WORK EXPERIENCE:

IT Support Services, Montclair State University

September 2023 - Present

Service Desk Technician

- Provided Tier 1 technical support in a multi-user IT environment, resolving hardware, software, authentication, VPN, Wi-Fi, printer, email, endpoint, and network connectivity issues for students, faculty, and staff.
- Troubleshot Windows, macOS, iOS, Android, and Chromebook devices, diagnosing access issues, software errors, browser/cache problems, device configuration issues, and connectivity failures.
- Managed incidents, service requests, and escalations in ServiceNow, documenting troubleshooting steps, customer communication, root cause details, and resolutions throughout the ticket lifecycle.
- Used BeyondTrust Bomgar and cross-team escalation workflows to remotely diagnose endpoint issues, elevate privileges when appropriate, and collaborate with Identity Management, Networking, Desktop Support, Information Security, and enterprise application teams.
- Created and maintained knowledge base documentation and internal procedures for MFA resets, NetID activation, phishing reports, printing, VPN access, application support, and new technician training.

PROJECTS:

PurchaseLog — Inventory & Sales Management Web Application

Python, Flask, Flask-SQLAlchemy, SQLite, Jinja, Bootstrap, HTML, CSS

- Built a browser-based inventory and sales management application with database-backed purchase tracking, sales records, item management, and reporting functionality.

Full Throttle — Unity Driving Game

Unity, C#, Git/Git LFS

- Developed a Unity driving game with multiple gameplay modes, vehicle controls, AI traffic spawning, pause menus, level selection, and game-state management, while programming C# gameplay/UI systems and using Git/Git LFS to manage large assets and troubleshoot project pipeline issues.

LEADERSHIP & INVOLVEMENTS:

Theta Xi Fraternity

April 2023 - May 2026

President

January 2025 - January 2026

- Led an 8-member executive board to oversee operations for 20+ members, organizing leadership workshops, driving strategic initiatives, and representing the chapter at university and national levels.

Inter-Fraternity Council (IFC)

President

May 2025 – May 2026

- Oversaw Interfraternity Council operations, leading executive board and chapter representatives while restructuring leadership model from 9 to 5 positions to improve efficiency and decision-making.
